

SmartEdge Digital School Management Software (ERP)

Smartedge Digital School Management Software(ERP)

The only educational ERP you need for totally automating your entire campus. A management solution for institutions that is easiest to use, fastest to implement with the best results. As schools, colleges and universities must do more with less in the face of mounting competition, shrinking budgets, uncertain futures and student demands for evolving new media, SmartEdge Digital School has a product that is the complete solution.

Why SmartEdge Digital School?

SmartEdge Digital School is elegant in its operational concept of a 'Service Oriented Approach'. The distributed and synchronized data provides the source of information needed for student, staff and management at a much higher speed. It is designed to speed up various tasks across the institution system and offers modules from student robust features that benefit educators, students, and staff. An ERP solution that can be accessed anytime, anywhere, SmartEdge Digital School automates the entire student life-cycle — integrating admissions, registration, student fee management, and overall student services and more into a single system that makes functioning of any educational institute effortless.

SmartEdge Digital School integrates all departments, faculty, students and other stakeholders. It enables everyone to benefit from readily available data shared in real-time, boosting efficiency and reducing the number of systems an institution maintains, all while also eliminating redundant data.

Features & Benefits

Zero maintenance

You no more need to talk to technology Web Design Company to update your website information. Our unique feature offers you easy editor to update your institution information from any computer.

Reduced costs

Our solution brings ERP solution to you at lowered and affordable costs.

Flexible functionality and deployment

Our software is simple enough for novice users, yet robust enough for power users. A scalable, standards based platform means you can start small and rollout new features and functionality, as you are ready.

Easy GUI

Adding and customizing content is easy thanks to an intuitive interface and the ability to integrate with external applications.

Automatic Timetable

Timetable management system provides a mapping of a slot with a respective subject, subject teacher. Staff attendance daily mark then teacher can leave or absent then automatically adjust another teacher in timetable.

Single Page Student Report

Admission time to NOC Certificate all report of student print in single page.

Personalized, role-based access

Providing single sign-on access to content on your portal based on role is simple, so you can ensure everyone can find what they need and only what they are authorized to see.

Best ROI of Any ERP

Smartedge Digital School's functions are designed to be multi-user, allowing you to work simultaneously and independently of others. Modules and portals are completely integrated to unify user data, to eliminate the need for costly multiple systems and to automate administrative tasks.

Fastest and Easiest Implementation of Any ERP:

Thanks to its parameter-driven, rule-based architecture, implementing Smartedge Digital School is quick and easy.

Easiest ERP to Learn and Use:

Learning to use Smartedge Digital School is just as easy as learning an Internet browser. Smartedge Digital School uses the familiar point-and-click interface of today's Web browsers to bring your data to your desktop. Navigation is clear and consistent, enabling all users to move throughout the system without retraining.

Empowers IT department:

Smartedge Digital School requires no client maintenance, enabling your technology staff to spend time building the institution's strategic capabilities, not troubleshooting desktop client software. Smartedge Digital School minimizes network traffic because by design data and data processing reside on the server.

Works across Platforms:

Designed as a browser-independent resource for communication and interaction, Smartedge Digital School enable students, faculty and administrators to access live, up-to-date information and services 24/7.

Secure Data:

Building a database is hard work. Smartedge Digital School secures it. Smartedge Digital School employs full data security and role-based security, allowing users to manage access with a high degree of granularity -- by record, by course, by student and by object.

Live support:

A 24 / 7 dedicated support team assists customers with their technical questions or issues.

Benefits to Admin/Management:

- Repetition In Maintaining Records
- All Transactions Will Be Paperless
- All Records and Reports Will Be Handy
- Control and access to all modules of system & budget
- Centralized Control Over all System and Budget of school
- Aid in Smarter Future lanning
